

July 16, 2021

As you are probably aware, the City is in the process of flushing water mains. We have thought long and hard on how to flush the mains with as little impact as possible to the business district. The City has decided to flush the mains in and around your business during the late night, early morning hours. We anticipate we will be in this area starting next week, July 19<sup>th</sup> through the 23<sup>rd</sup>. The hours of flushing will be between 10:00 pm to 6:00 am. We realize this may overlap with some business's hours; however, we believe these hours will have the least impact overall.

You should expect to see discolored water while we are flushing. Once we have stopped for the day or have finished completely you will need to flush the water pipes on your property. This could take up to 15 minutes and we recommend you flush the cold water only so as to not introduce discolored water into your water heater.

Thank you,

A handwritten signature in black ink, appearing to read "Dustin Sloan". The signature is fluid and cursive, with a large initial "D" and "S".
