8. WEST MILTON FIELD UPDATE

Nate not present to report on FME.

Board members noticed the ever-growing water body in the area.

9. WTC MEMORIAL DESIGN BRAINSTORMING

Board members shared design ideas:

- Horizontal placement
- Cut into smaller pieces for vertical placement
- Stainless-steel hands, angel wings, or similar holding the beam – incorporation of art
- Setting the overall memorial into the ground with stairs down, like a sunken living room and/or set into the hillside
- Secured from graffiti, climbing, and the like

Kent invited Heather and Cathy Popp to share their design ideas:

- Cathy suggested a pentagon-shaped memorial with “911” in Roman numerals “IXXI” so it reads the same coming and going.
- Heather suggested twin fountains with victim names and incorporating the pentagon shape – drawings submitted. Pentagon shape incorporates the steel cut into 5 portions. She showed photos of the Tacoma and Federal Way memorials.

Kent suggested asking school art classes to put the ideas into scale drawings.

Kent asked for opinions on various components:

- Small vs large – **consensus 4/0 of about 900 square feet**
- Cut vs keep to size – **consensus 4/0 to cut and share** with other jurisdictions that put in for a piece of steel but didn't get one
- Vertical vs horizontal – open to ideas

10. MEMBER COMMENTS
