## PROCESS TYPE V APPLICATIONS

### WHEN PROCESS TYPE V IS USED

References to Process Type V applications are found in several places in the Milton Municipal Code (MMC), indicating that the development, activity, or use, is permitted only with Type V Process approval. The following land use permits require Process Type V approval:

- Planned Development Master Plan (MMC 17.38)
- Special Use (MMC 17.42)

### HOW TO APPLY

- Applicants may schedule a preapplication conference prior to submitting an application. A preapplication conference is not required, but is heavily encouraged so that fundamental errors may be avoided by the applicant.
- This form is to be used by an applicant as a guide in determining what constitutes a complete application.
- All items must be submitted to constitute a complete application.
- Applicant will be notified of a complete application within 28 days of submittal.
- A complete application does not imply compliance or conformance with applicable codes.
- Additional fees may be required for consultant review of application materials.

### NOTIFICATION

Notice of application is required for Type V applications, and will be distributed by the planning and community development department by mail to the applicant and any owners of property within 500 feet of the project site. A neighborhood meeting is also required for all Process Type V proposals. The department of planning and community development will set a date for the neighborhood meeting.

### WHO MAKES THE DECISION

City council is the decision-maker for a Process Type V application. The hearing examiner shall conduct an open record hearing regarding the project and recommend that city council approve a project, or approve with modifications if the applicant has demonstrated the proposal complies with the applicable decision criteria of the Milton Municipal Code and all applicable development standards. The applicant carries the burden of proof and must demonstrate a preponderance of the evidence supports the conclusion that the application merits approval or approval with modifications. In all other cases, the hearing examiner shall recommend denial of the application.

City council shall then conduct a closed record hearing regarding the project and issue the decision based on the recommendation of the hearing examiner, review and analysis of decisional criteria, the official file, and written public comment.

### APPEALS

There is no administrative appeal for a Process Type V decisions. A final city decision on a land use permit or zoning (MMC Title 17) application for a Process Type V decision may be appealed to superior court by filing a land use petition meeting the requirements set forth in Chapter 36.70C RCW.
